**TO WHOM IT MAY CONCERN**

This is to certify that the Sermey Thoesam School Charitable Educational Society offers senior secondary level education and is a verified branch of the Sermey monastic institution. This school comes under the jurisdiction of Lugsung Samdupling Tibetan Settlement Office and was established primarily to facilitate delivery of modern education alongside classical Buddhist scriptures to young ordained monks. The school hosts more than 431 students from Tibet, Ladakh, Lahual Spiti and other Himalayan regions.

The land upon which the said institution buildings are located comes under the purview of 300 acres of land released for the rehabilitation of 300 Buxa Lamas at Bylakuppe by the Karnataka Government. The same is documented by the State government's Revenue Department RD 78 MTR 77 of August 26, 1982.

We kindly recommend and would very much appreciate for rendering all possible support and assistance towards the school's application for recognition by the Karnataka State.

Thanking you,

Guru Nyima (Mr)  
Settlement Officer
